

Actual Project Activities

Please list the activities that took place during your laboratory time, and indicate when they occurred, and who did them. The 'Initials' column must specify only one person. If two people worked on the same subsystem or task, you should list this as two separate activities, and be clear about what each individual contributed.

| Activity | Initials | Fri am | Fri pm | Mon am | Mon pm | Tue | Wed | Thu | Fri am | Fri pm | Mon am | Mon pm |
|--|----------|-----------|-----------|-----------|-----------|-----|-----|-----|-----------|-----------|-----------|-----------|
| Web file upload | MC | X | | | | | | | | | | |
| FFT WebUI developed with generated data | MC | | | X | | | | | | | | |
| Web back-end file handling and install scripts | MC | | | | X | | | | | | | |
| Major install script debugging and workarounds | MC | | | | | X | | | | | | |
| File signing and permissions workarounds | MC | | | | | | X | X | | | | |
| Working file system from upload to install (debugging) | MC | | | | | | | X | X | | | |
| Additional functionality (Pi restart and calibration) | MC | | | | | | | | | X | | |
| Web Server testing, debugging and tidying | MC | | | | | | | | | | X | X |
| Full Raspberry Pi Image Backup | MC | | | | | | | | | | X | |
| Apply simulated realtime data to FFT using JQuery | MC | | | | | | | | | | | X |
| | | | | | | | | | | | | |
| | | | | | | | | | | | | |
| | | | | | | | | | | | | |
